Why I am running for a seat on the Botany Bayou Homeowners Association Board of Directors:

I believe that Botany Bayou is a great community with good amenities and would like to contribute my talents to continue to make it enjoyable for everyone. I believe community safety for our residents, children and guests are very important. I am volunteering to serve on the Board for several reasons. I am interested in protecting the value of our homes and property. I would like to help develop a fiscally responsible budget and establish reserve funds. I would also like to help ensure that Botany Bayou continues as a family friendly community for all present and future residents and becomes one of the most financially sound communities in South Walton.
